This course is designed for Registered Nurses but other health professionals, Chaplains, Pastoral Care Workers, Deacons, and volunteers interested in health and pastoral care ministry are welcome to enrol in the course and they will find the content very beneficial for their own ministry.

About this on-line course

This is a comprehensive internationally recognised course to prepare and equip Registered Nurses for the specialty of Faith Community Nursing.

This AFCNA course is taught on-line over one semester, so you can take it from the comfort of your home.

The course is taught from a Christian worldview and covers topics such as spirituality, theology, professional practice, holistic health and healing, health promotion, illness prevention, community health, supporting people with specific life/health issues, and much more. The course outline is overleaf.

If you have any further questions just contact us and we will be very pleased to answer them for you afcna@outlook.com

As a Faith Community Nurse you use your nursing knowledge and skills to promote health, healing and wholeness within a faith community. You serve as a partner in whole health to people within your faith community and your broader community.

This course adds professional nursing and a health focus to pastoral care, adding depth and scope to that ministry. You will be equipped to support and care for the whole person within your community in the Faith Community Nurse role in your church or faith community organisation. The course provides practical application to enable you to apply your learning to your faith community and its particular vision and ministry focus.

This course is adapted for the Australian context from the international curriculum endorsed by the Westberg Institute for Faith Community Nursing.
